EXPERIENCE

Full Stack Developer Intern Infotact Solutions July 2026 – Present

- Working on full-stack web application development using modern JavaScript frameworks
- Contributing to system design, API development, and frontend implementation

Cybersecurity Intern Thiranex May 2026 – June 2026

- Conducted vulnerability assessments and security analysis on web systems
- Gained hands-on exposure to cybersecurity tools, threat modeling, and incident response workflows

Webmaster Head IEEE IAS Student Branch, MITS April 2025 – January 2026

- Managed and maintained the official IEEE IAS Student Branch website
- Updated content for events, workshops, and technical activities
- Improved website structure, responsiveness, and performance
- Collaborated with the core team for digital outreach

PROJECTS

Omnipost React 19, TypeScript, Vite, Express, Gemini API, Firebase [GitHub](#)

- Built a full-stack AI content generation platform with multi-platform post generation support
- Implemented real-time AI response streaming with a clean, responsive UI

Air Mouse ESP32, MPU6500, BLE, React, Node.js [GitHub](#)

- Created an ESP32-based gesture-controlled cursor system with BLE connectivity
- Built a full-stack dashboard with real-time motion tracking and AI-powered gesture recognition

Phishing Email Detection Model Python, Machine Learning, NLP [GitHub](#)

- Developed a Python-based ML model to classify phishing emails using feature extraction
- Applied supervised learning techniques to achieve accurate threat detection

Online Admission Portal Next.js, React, Express, MongoDB College Team Project

- Developing a full-stack admission portal for MITS Gwalior with student registration, document upload, and eligibility verification
- Integrated secure authentication, admin dashboard, and real-time application management

SKILLS

Languages	C, C++, Python, JavaScript, Bash/Shell Scripting
Frontend	HTML, CSS, ReactJS, NextJS
Backend	Node.js, Express, MERN Stack, API Integration, Redis
Databases	MongoDB, PostgreSQL
Networking	Computer Networking, TCP/IP, OSI Model
Domains	Full Stack Web Development, IoT, Cybersecurity
Tools	Git, GitHub, VS Code, Arduino IDE, Thonny, Linux

EDUCATION

B.Tech – Internet of Things, MITS Gwalior (Madhav Institute of Technology and Science) 2024 – 2028
CGPA: 8.06 3rd Year
